Micro-Treat {FOG} (Oilfield/Construction)

Micro-Treat {FOG} is a liquid formula of specially selected multi-cultured bacterial strains. These enzyme catalysts work synergistically for the fastest action available in a liquid digestant using natures' own cleaning agents.

Micro-Treat {FOG} contains a synergized blend of selectively chosen Bacillus organisms, all of which has been selectively adapted for accelerated degradation capabilities of organic compounds such as grease, fats, proteins, starch, sugars, and cellulose.

BENEFITS

- * High impact grease and fat degrader.
- * Highly effective, broad spectrum organic degradation capabilities.
- * Environmentally friendly.
- * Easy and safe to apply.
- * Extensive stability and shelf life.

SPECIFICATIONS

- * Contains five (5) selectively adapted Bacillus strains.
- * Cellulose digesting bacteria.
- * Protein digesting bacteria.
- * Starch digesting bacteria.
- * Fat, Oil & Grease digesting bacteria.
- * Canadian Food Inspection Agency (CFIA) approved.

CHARACTERISTICS

Form:.....liquid
Color:.....white
Fragrance:floral
pH:.....7.0 +/- .5
Flash Pt:.....none
Shelf Life:.....24 months
